Poreign Summary.

NIAGARA AS A MANUFACTURING SITE.—Many a calculation has been made of the motive power which might be furnished by the Falls of Niagara; and it would seem that the time is about coming when this most powerful cataract on the globe will no longer waste its strength in vain. Two or three years ago a canal, 80 feet in width by 10 in depth, extending from a point on this side the river, about 100 yards above the rapids, through the rear of the present village, to a bank a mile below the falls, was commenced and is now completed. The Canal Company own about 70 acres of land by the lower terminus, on which it is proposed to erect tiers of factories as in own about 70 acres of land by the lower terminus, on which it is proposed to erect tiers of factories as in Paterson, only on a much larger scale. The canal can be enlarged to any extent considered necessary. The situation of Niagara is certainly a remarkable one, connected as it is by lake, river, railroad and canal with every part of the continent. On the shores of the great Lakes are found minerals of every description, such as iron, copper, coal, &c., and in almost fabulous quantities. The tide of business through the neck separating Lakes Erie and Ontario must ever be immense, and the water power being added a large city must spring up on the spot within

a few years. We learn from Utah, that on the arrival of a six months's mail from the United States, Brigham Young requested two men to read what they call "the whole six months' batch" of newspaper scandals against themselves. Nearly four hours were occu-pied in the reading, and a large company appear to have been present to listen to these documents, yet probably half the infamy of that polygamous people has not been told. The great temple of the Mormons is going on rapidly. The saints are remonstrating loudly against the United States officers, claim the right to elect their own rulers, and "unanimously and of right wish and respectfully petition that his Excellency Brigham Young be continued as their

The New Orleans Delta estimates the number of slaves at the south at over three-and-a-half millions, and their aggregate value, at present prices, at fully sixteen hundred millions of dollars. The cotton plantations in the South it estimates at about eighty thousand, and the aggregate value of their annual product, at the present prices of cotton, is fully one hundred and twenty-five millions of dollars. There are over fifteen thousand tobacco plantations, and their annual products may be valued at fourteen millions of dollars. There are two thousand six hundred sugar plantations, the products of which appears the products of their annual large transparence of their annual large. plantations, the products of which average annually more than twelve millions. There are five hundred and fifty-one rice plantations, which yield an annual revenue of four millions of dollars.

Mr. Spurgeon .- As an illustration of the style of sermonising which characterises Mr. Spurgeon, the following will answer pretty well, both in respect to matter and manner: "Now," we quote from one of his recent sermons, "If I wish to test you all, and might ask you only one question, I would ask you this: What is righteousness? Now come along in single file. What is your righteousness? O, I am as good as my neighbor. Go along with you: you are not my comrade. What is your righteousness? Well, I am rather better than my neighbors, for I go to chape! regularly. Off with you, sir, you do not know the watchword. And you, next, you, what is your righteousness? I have been baptised and am a member of the church. Yes, and so you may; and if that is your hope, you are in the gall of bitterness. Now you, next, what is your hope? O, I do all I can, and Christ makes up the rest. You are a Babylonian; you are no Israelite; Christ is no makeweight; away with you. Here comes the last. What is your righteousness? My righteousness is filthy rags; except one righteousness which I have, which Christ wrought out for me on Calvary, imputpotless as an angel. Ah, brother, you and I are fellow soldiers. I have found you out; this is the watchword-'your righteousness of me, saith the

THE COMET FRIGHT IN MAITA.—Letters from Malta mention that, on the nights of the 12th and 18th June, prayers were offered up in many of the Roman Catholic churches that the sinning population might be saved from the consequences of the stunning crash which some of the Continental astronomers looked upon as possible, from the close proximity to the earth of the passing comet, which no one seems to have discovered, notwithstanding a diligent lookout had been kept by the possessors even of the most diminutive Dolland. Something of an unusual nature was, however, seen in the heavens about ten minutes past five on the afternoon of Sunday the 14th. A bright luminous band of variegated colors shot across from east to west, lasting only a few minutes, the wind blowing at the time very fresh from the W.N.W., the sky serene, thermometer standing at 70, barometer (at the level of the sea) 29.87, sea rather troubled; anusually cool weather for the season prevailed, and the nights were rather cold. The same meteor was seen at 4:30 P.M., westward of Malta, from on board the steamer Demetrius. Many timid old women had not had a wink of sleep for several nights preceding the 13th, being unwilling to be caught napping during the anticipated crash.

MRS. CONNINGHAM.—The Surrogate of New York has decided against this lady, and Dr. Burdell's estate remains in the hands of the Public Administrator. She has not yet been admitted to bail.

Goat Skins,

Hides.

DURCHASED BY And for which the very highest prices will be given. 60-tf

CAPT. ROBERT BROWN'S WHALING GUN, PATENT BOMB LANCES AND GUN HARPOONS. AFTER SEVERAL YEARS LABOR AND experimenting upon whales, on the whaling ground, with his apparatus, combined with the advantages of being a practical whaleman, the Patentee has been enabled to obtain an instrument in form of a Bomb Lance, which for utility and effectiveness curnot be excelled.

The attention of Agents and Officers of whale-ships is called to the following testimonials. SAN FRANCISCO, January 10, 1856.

CAPT. R. BROWN—Sir. I take this opportunity to inform you that we used those Bomb Lances we bought of you, and found them to be of great periodic in capturing whales amongst the less.

The first whale that we need the Bomb Lance on was killed in the following manner.—The boat went alongside of the whale and the boat-steerer fired a Bomb into him and then fastened to him with a gig iron: the Bomb was heard to explode, and the whale did not blow after the Bomb exploded. The above-mentioned whale was in the ice, and it is our opinion that we should not have got that whale and many others that we did get, if it had not been for your Bomb Lances, and we fully recommend them to the attention of those fitting out whale ships.

Respectfully yours,

Respectfully yours, THOMAS WALL, Master bark George, CAPT. ROBERT BROWN—My dear Sir: I used your Bomb Lances in taking a whale, north, the past season, which made 250 bbls. of oil. We never could have taken him without said Lances, as our boats could not get near enough to use the common hand lance.

Yours Respectfully, G. L. Cox, Master whale-ship Magnolia. Capt. Robert Brows—Dear Sir: I take this opportunity to inform you that I used your Bombs on the voyage in the ship Herald, and found them effective in taking whales, and would recommend them to all whalemen, and especially around the ice. I also used the harpoon and got most of the whales by your Guns and apparatus.

Yours Respectfully, ISAAC ALLEN, Master ship Herald. Other testimonials can be seen by calling on the undersigned, Agents, who have the Guns, Bomb Lances and Harpoons for sale. R. COADY & CO., Honolulu.

PICTURES ON GLASS AND PAPER,
Known as the Patent Ambrotypes and Photographs.
Having recently arrived from the United States, with good instruments and a new and extensive assortment of stock, he feels confident that he can give entire satisfaction to those who favor him with their patronage.

N. B. Pictures put up in a VARIETY OF STYLES, to suit customers. tot, P.M.

W. F. HOWLAND.

The undersigned can furnish superior toned instruments of the above makers, through Messrs. Badger & Linder berger, Sole Agests for the Pacific coast.

A CARD. THE LADIES of the Methodist Episcopal Church of Honolulu, would beg respectfully to inform the public that their intended FAIR (the proceeds of which will be devoted to the erection of a Parsonage) will take place at the Anction Room of J. F. Colburn, Esq., on Friday Evening, Nov. 20th. Any donations or contributions to the same, may be sent to the store of Mr. J. T. Waterhouse, on King street.

Honolulu, Oct. 22, 1857.

MELAINOTYPES.

THE UNDERSIGNED would respectfully call the attention of the public to the above named style of pic tures, a recent and invaluable improvement in the art of sun drawing. In richness of tone and warmth of expression, these pictures are not surpassed by any other kind, while, in regard to durability, there is no question as to their superiority; for they will receive a fall without fracture or injury, and may be washed when soiled. Hence, they may be sent by letter, without glass or case, to absent friends, at a very trifling expresse for postage.

All the latest styles of photographic pictures have been introduced and may be obtained at this gallery, finished in a superior manner, insuring likeness and durability; and arrangements have been completed with EMINENT ARTISTS in California and the cast, to introduce at once any late improvements or new features of practical importance in the art.

Photographs on Papers laken by the dozen and half dozen, and pictures and paintings copied, either by the improved Ambrotype or Daguerractype process. Also, likenesses inserted into tockets, pira, bracelets, &c. Photographic views of parts of the city, public buildings, &c., for ale.

Conspice Daguerractype Apparatus, fixtures and stock, for the parts.
